

Hi Susie,

My name is Mrs. Bass and I'm just reaching out to let NCMCO know your collection of Mustang websites were a big help to my daughter MaryAnne. I'm currently helping her with a school project for her history class! Her teacher assigned a 'Decades Project' as a fun timeline of US history. Each week, her class has been going through the decades and learning about important historical events, fashion, music and culture during those years. I'll admit it's been a really fun project - for both of us!

We're on the 1960s right now and learning about car culture and how it impacted society! Your links page led us to some great Mustang sites to check out, which is just what we were looking for! MaryAnne requested that I let you know :)

As a thank you, I wanted to pass along this timeline of the Ford Mustang that MaryAnne found... <https://www.speedwaymotors.com/Info/A-Timeline-of-the-Ford-Mustang>

MaryAnne was very excited to share it with you! We enjoyed reading through it and you would too! Can you include it on your page? <https://ncmco.org/links.html>

I'd love to show MaryAnne and her teacher if you include it! It's always nice getting some recognition for a job well done, and perhaps she will even get some extra credit? Brownie points would be great with the end of the year approaching!

The project is due on Monday, if you get a chance to include it by then. I know life can be hectic though, so if not, whenever you get a chance to add it is great. I really appreciate it!

Enjoy your weekend,  
Mrs. Michelle Bass
